Sleeping function - DELFIN/ LEOPARD

FOR OCCASIONAL
USE AS A BED

How to unfold it?

DELFIN (type A)

Pull out the box on castors from underneath the furniture and slightly pull up the foam mattress holding the handle. By doing so, you will level the mattress section with the seat base.

The sleeping area is composed of the seat base with the retractable mattress section hidden inside the furniture.

LEOPARD (type B)

Slightly pull out the front of the furniture and then pull it towards you at the same time lifting the whole seat base. The mattress section will raise automatically. Push down the seat base to even out the sleeping surface and push it towards the backrest of the furniture to reduce the gap between the mattress section and the backrest.

The sleeping area is composed of the seat base with the mattress section hidden inside the furniture.
